

Cordera Platinum Insurance

According to a recent report from the US National Center for Health Statistics, about 45 million people have no dental insurance coverage. Many people wait until they get dental insurance before they seek dental care.

Delayed treatment can often result in increased expense to the patient. Extensive decay can often only be treated by the more expensive procedures such as root canals, buildups, and crowns.

The American Dental Association recommends two routine dental visits with cleanings and exams each year.

With our in-house insurance plan, you can receive the regular dental cleanings you need and helpful discounts for other necessary treatment. Your annual premium pays for two adult cleanings with exams, one set of bitewing radiographs, and two fluoride treatments (optional). Additionally, you will receive a 10% discount on the following preventive and basic procedures:

- Exams
- Radiographs
- Sealants
- Fillings
- Oral surgery

Should you require more extensive treatment, the following procedures are given a 20% discount:

- Crowns
- Bridges
- Root Canal Therapy
- Removable Partial Dentures
- Periodontal Scaling and Root Planing

Procedure	Fee	Your Cost \$175/year
Cleaning	\$80/visit or \$160/year	2 included in premium
Periodic Exam	\$50/visit or \$100/year	2 included in premium
Fluoride Treatment	\$31	2 included in premium
Bitewing Radiographs	\$58	1 set included in premium
Emergency Exam	\$75	\$67.50
Extraction	\$140	\$126
Periodontal Scaling	\$245/quad	\$196/quad
Root Canal	\$989	\$791
Crown	\$985	\$788

For two cleanings, two exams, one set of bitewing radiographs and two fluoride treatments you pay \$175 and save \$205! Should you need any restorative treatment, you can save even more!

Family Coverage is available!

Two member coverage: \$325/year
Additional family members: \$125/each
