

Instructions
For
Immediate or Temporary Denture

Instructions:

- 1) Leave Denture in mouth for 24 hours. Sleep with denture.
- 2) For next 7 days, only take out to clean Denture and your teeth, then place back into mouth. Sleep with denture.
- 3) On the 8th day, take denture out to clean and discontinue sleeping with Partial Denture.
- 4) If Denture begins to hurt gums after the 8th day, then call to schedule an appointment for an adjustment. This is normal while the gums adjust to your new denture.
