

# Pet Sitters:

Here are a few of the "at home" pet sitters that our clients have recommended. We suggest that if you're interested, call and schedule an appointment to have them come to your home. That way you will be able to see how your pet reacts to them in their own environment. It will also give you the opportunity to meet the sitter in person and make sure they're the type of person that you would want to trust with the care of your pet and home. Everyone listed below is bonded and insured.
