Dental Health Care Plans

Giving you reason to smile

Zen Dental Health Plans

We would like to offer a unique and life-long commitment to your dental needs. To enable us to fully deliver the very best continual care it is imperative that we educate, instruct and carry out desirable work to bring your oral health up to the highest level. We have found that almost everyone has fillings, some degree of gum problems, and of course may want cosmetic or state of the art treatment.

We will use our dental plans to correct and improve the oral health of all plan members, so that we can return you to a preventative based plan. All of the adult plans which we provide further details on overleaf include worldwide accident and emergency insurance cover for your peace of mind. And, they save you money and allow you to budget for the cost of your dental care.

Zen Clinic will only be offering these plans to a limited number of patients and we intend to cap the numbers on our Zen Plan list; so that it is manageable and we can deliver the high quality of treatment and care that we (and you) would wish.

How do I join a Plan?

To join you need to submit your bank details in order for a direct debit to be set up. Simply come in and see us at the practice and after an initial consultation you can fill in a registration form and a Direct Debit mandate and that's all there is to it!

Alternatively, you can enter the following link on your computer <https://www.patientplandirect.co.uk/index.aspx/698678/725> and follow the instructions which will allow you to join the plan online.

OUR PLANS

We have designed 3 Adult Plans and 2 Children's plans that we hope will help you budget for improved oral health. **All of our Adult plans include free child cover for children up to the age of 5 where a parent is on a plan.**
